American Fulbright Scholars, 1986-87

Each year nearly 1,000 Americans are awarded Fulbright grants to lecture or conduct research abroad. Most of the grants are for the academic year of the host institution or country, but grants for shorter periods are also awarded in a number of countries. Except for specified programs, however, summer grants and grants for attendance at international conferences are not available.

About 60 percent of the awards are for university lecturing, usually in a field of importance to the host institution. Many lectureships allow opportunity for research, and research scholars may undertake occasional lecturing. Terms of awards vary from country to country, but generally include round-trip travel, basic health insurance, maintenance allowances, and supplemental allowances.

Most awards require a doctorate and appropriate professional experience. While English is acceptable for many assignments, fluency in the language is sometimes required. All applicants must be U.S. citizens.

The National Competition

American scholars and other professionals interested in university lecturing and advanced research abroad should request information and application forms from CIES. An announcement of Fulbright scholar awards to begin 12-18 months later is published each spring.

The Directory

This directory lists about 1,000 American scholars who recently received Fulbright awards for university lecturing and advanced research abroad. They will hold various appointments in approximately 100 countries during the 1986-87 academic year. The dates that appear at the end of most entries indicate when each scholar will be overseas. A few of the dates may have changed, however, since in many cases specific information was not available when the directory was printed. Names of scholars whose awards were confirmed after September 1986 will appear in next year's directory.

The descriptive information for each scholar is arranged according to academic discipline. Scholars are also listed in alphabetical order, by host geographic area, and by home state in the indices.

Scholars awarded grants through the Indo-American Fellowship Program are listed with other scholars in the discipline section, with a notation following each participant's entry.

Preceding the discipline section are lists of participants in these special short-term programs:

- Fulbright 40th Anniversary Year Distinguished Fellows
- Seminar on German Civilization and Society (Landeskunde)
- U.S.-German International Education Administrators Program
- South America Today
- Spain Research Fellowships

Distinguished Fellows Fulbright 40th Anniversary Year

In commemoration of the 40th anniversary of the Fulbright Program, the Board of Foreign Scholarships and the United States Information Agency have designated a number of scholars, artists, and public figures from the United States and abroad as Fulbright Distinguished Fellows. Several prominent Americans, selected in recognition of their international accomplishments in scholarship, the arts, and public affairs, as well as their contributions to international understanding, will present lectures, seminars, master classes, and performances in 59 countries during the anniversary year program.
