Fulbright Visiting Scholar Program

2000–2001 Directory of Visiting Scholars and Occasional Lecturers

FULBRIGHT SCHOLAR PROGRAM

Sponsored by the United States Department of State, Bureau of Educational and Cultural Affairs

CIES is affiliated with the Institute of International Education.

“The impact of Dr. Der, our Visiting Fulbright Scholar, and his courses have been tremendous on our liberal arts program. We don’t offer that many courses on Africa, so his contribution was extremely good for fulfilling our international education mission. . . . Because of the impact he has made on our students, many of them will be seeking to take courses with a focus on Africa.”

Dr. Paschal Kyoore, Associate Professor of French, Gustavus Adolphus College

“Visiting Fulbright Scholar Arben Kumbaro called attention to a part of the world which received inadequate attention in our curriculum, and that is Eastern Europe. More than anything else, he made us aware of a gap in our work that will need to be filled by visiting scholars and curriculum adjustments.”

Dr. David McKenzie, Professor of Philosophy, Berry College

“Professor Tobi created a connective bridge between our campus and the Orthodox and Conservative Jewish communities that we never had before, and we are both richer for this! These working relationships and friendships are a lasting legacy of Professor Tobi’s efforts.”

Dr. Catherine Cookson, Director, Center for the Study of Religious Freedom, and Associate Professor of Religious Studies, Virginia Wesleyan College

INTRODUCTION

The 800 Fulbright Visiting Scholars who come to the United States each year offer a wonderful resource for campuses and communities across the country. All of the scholars, for example, are available to make subsidized short-term visits through the Occasional Lecturer Program in order to share their academic expertise as well as insights into their homelands and cultures.

This annual directory provides a cross-indexed listing of most of the 2000–2001 Visiting Scholars and provides instructions on how to request one to come to your campus or community under the Occasional Lecturer Program.

A complete listing of scholars, including those confirmed after the directory's publication, is available online at www.cies.org. Also on the Web site is comprehensive information on the entire Fulbright Visiting Scholar Program, as well as instructions for requesting a Visiting Scholar for an academic term or year. You can request a brochure on the program from scholars@cies.iie.org or by calling 202.686.8664.

We urge you to take advantage of the Visiting Scholar Program. Contact any of the staff listed on the inside front cover of this directory for additional information.

Occasional Lecturer Program

The Council for International Exchange of Scholars (CIES) provides funds through the Occasional Lecturer Program to cover the round-trip travel costs of Fulbright Visiting Scholars invited to U.S. colleges and universities and local communities for short-term guest lecturing visits. Financial assistance is also available for Visiting

Scholars to present papers at scholarly and professional conferences.

The program enables Visiting Scholars to

- share their specific research interests
- speak on the history and culture of their countries
- exchange ideas with U.S. students, faculty and community organizations
- become better acquainted with U.S. higher education
- create linkages between their home and host institutions

Arranging an Occasional Lecturer Visit. If you find a scholar in the directory whom you would like to invite to your campus, contact the scholar directly, using the faculty associate names and addresses provided. You can also contact CIES staff to obtain a contact telephone number or e-mail address. (See the staff listing on the inside of the front cover.)

Occasional Lecturer travel funds are provided directly to the participating scholar. To obtain funds to cover round-trip transportation costs, the Visiting Scholar must submit to CIES a formal letter of invitation from the host institution or organization, along with dates of travel and approximate cost of round-trip economy airfare, at least **one month before the visit** is to take place. (If possible, scholars are asked to submit their requests even further in advance.) Within two weeks of receiving the letter and travel itinerary, CIES will inform the scholar whether the request for funding has been granted. The scholar is responsible for purchasing an airline ticket or ticket for some other means of transportation, such as a train, bus or rental

car. After the trip takes place, the Fulbrighter will be reimbursed for up to a maximum of \$750 for travel only.

Multiple Occasional Lecturer Visits and Visits to Minority-Serving Institutions. Due to limited funding, each scholar is eligible for only one trip; although requests to visit more than one institution on a single trip will be considered. *An exception to the one-trip rule may be made if the scholar is invited to guest lecture at minority-serving colleges and universities. Additional monies are available to scholars visiting these institutions.*

Attendance at Professional Meetings. Scholars invited to professional meetings as presenters or discussants may also receive travel funds through the Occasional Lecturer Program. Meeting coordinators are encouraged to arrange participation by contacting Visiting Scholars directly.

Responsibilities of Institutions and Organizations Hosting Occasional Lecturers. Institutions wishing to host a Fulbright Scholar should develop a comprehensive plan of activities and arrangements to share with the scholar well in advance of the proposed visit. Host institutions are asked to provide occasional lecturers with

- local transportation
- accommodations
- meals

It is important to inform the scholar, prior to arrival, about the kind of support the host institution or organization will provide. Institutions should also provide the scholar with a formal letter of invitation as soon as possible. The scholar will need it to formally request travel funds from CIES.

Length of Visit. The length of the lecturer's stay at the institution will depend upon the particular interests of the academic community or organization and the

facilities available, but the period should allow an opportunity for the scholar to become acquainted with the host institution or organization. A program of two to three days' duration is suggested; a longer period may be advisable if visits to several member institutions of a consortium are planned.

Suggested Activities for Visiting Lecturers.

Occasional Lecturers have engaged in the following activities in the past:

- Department- or school-wide lectures to students and/or faculty
- Lectures in classrooms where the scholar can make a contribution to the discipline
- Faculty meetings that allow for an exchange of ideas
- Informal gatherings of students and faculty
- Home hospitality offered by faculty
- Meetings with community organizations or religious groups that have a special interest in international relations
- Panel participation at professional conferences

Occasional Lecturer Stories

The following stories illustrate the many ways campuses, communities and Visiting Scholars benefited from the Occasional Lecturer Program last year.

Kwadwo Opoku-Agyemang, a scholar from **Ghana**, visited three elementary schools in Louisiana as an occasional lecturer. Speaking on Ghanaian customs and folklore, he gave the students insight into life beyond the rural parish or the New Orleans projects in which many of them live. *Opoku-Agyemang*, a scholar in residence, spent his Fulbright year at Grand Valley State University in Michigan lecturing on African and African American literature.

During her occasional lecturing visit to Ohio Northern University, **Russian** scholar *Marina Karaseva* shared

her considerable knowledge of music as well as methods of ear training. Her host, chair of the university's music department and a Fulbright alumnus, stated that Karaseva "motivated our students to strive for higher goals." In addition to her campus visit, the scholar gave a presentation at an Ohio Music Educators meeting on ear training methodology taught at Russian conservatories. The associate professor at the Moscow State Conservatory had a nine-month grant at the University of Maryland–College Park, where she conducted research on cognitive musicology and practical psychology.

The Women's Studies Group at Brandeis University invited Fulbright scholar *Niaz Zaman*, professor and chair of the English department at the University of Dhaka in **Bangladesh**, to speak to faculty and students. During her visit, the scholar gave a presentation on "Bonds and Borders: Women Novelists and the Creation of India and Pakistan." Zaman reported that the lecture was well attended and that the audience displayed considerable interest in the political and social conditions in her country. The visit was also of great benefit to her because she was able to make trips to Amherst and Concord to visit the homes of Emily Dickinson and Louisa May Alcott as well as to read manuscripts at the Boston Public Library. Zaman's Fulbright research project was on the male models and mentors in the lives and works of Margaret Fuller, Dickinson and Alcott.

Josef Glasa, a lecturer at the Postgraduate School of Medicine in Bratislava, **Slovak Republic**, spent his two-day occasional lecturer trip to Illinois speaking at the Center for Bioethics and Human Dignity and Trinity International University. Glasa addressed a number of bioethical issues currently being discussed in Central and Eastern Europe and compared them to the debates surrounding similar issues in the United States. As one

of his hosts explained, "he helpfully added light rather than merely heat" to often controversial bioethical topics. Georgetown University's Kennedy Institute of Ethics hosted Glasa during his three-month research grant.

Other Visiting Scholar Stories

Occasional Lecturers are drawn from a much larger pool of Visiting Scholars who are in the United States as Fulbright lecturers and researchers. These scholars routinely express how personally and professionally gratifying their Fulbright experiences have been, whether they are here for only a few months or a full academic year. Institutions hosting these visiting Fulbrighters are equally pleased with how much their visitors are able to share with their students and faculty—from cultural details about their home countries to technical expertise in a variety of disciplines as diverse as astrophysics, music and literature. These stories are just a few examples of successful recent visits. To read more scholar stories, visit "The Fulbright Experience" section on our Web site at www.cies.org.

AFRICA

Through the Fulbright Scholar-in-Residence Program, Heartland Community College (HCC) in Bloomington, Ill., hosted *Francis Ngwaba*, a professor at Abia State University in **Nigeria**. Ngwaba taught African literature at HCC, conducted collaborative research and gave several presentations about his country. During his grant, the scholar worked closely with his faculty associate, Dr. Glen Bush. The two met when Bush was a Fulbrighter at the University of Jos in Nigeria in 1991 and Ngwaba was chair of the English department there. Both hope for continued contact and exchange in the years to come. Ngwaba returned to Nigeria in June 2000 with a large collection of textbooks and other educational materials donated by his colleagues at HCC. He remarked that the support he received from his host institution was unprecedented in all of his years of teaching.

EAST ASIA AND THE PACIFIC

Kara Ka Wah Chan's academic-year Fulbright to Bradley University in Peoria, Ill., allowed both scholar and host to learn more about communications and advertising in a global economy. The associate professor from **Hong Kong Baptist University** spent much of her time at Bradley teaching advertising and advertising research and working on both independent and collaborative research projects. In addition to these tasks, Chan participated in staff meetings, sat on the search committee for advertising faculty and aided the department as it rethought its curriculum and investigated developing a graduate program in global communication strategies. The scholar also used her time in the United States to view commercials broadcast in the fifties, sixties and seventies; publish a paper on the public perception of environmentally friendly products; and observe and participate in the consumer environments of the Midwest and the World Wide Web.

EUROPE

Marek Wasilewski, an assistant professor at the Academy of Fine Arts in Posnan, **Poland**, spent the spring 2000 semester at Florida Atlantic University teaching courses on experimental sculpture and eastern European art and cinema. When he was not teaching or working on his own projects, the widely exhibited artist and published art scholar participated in a number of community events, often speaking about his home country and the Polish art movement to which he belongs. His activities included addressing the Palm Beach Institute of Contemporary Art and making presentations to the Polish American Cultural Society to commemorate Polish Constitution Day. In addition, he shared his art with his host institution through a video installation at the university's gallery and installed a

second exhibition at the Out North Contemporary Art House in Anchorage during a guest lecturing visit he made to Alaska in May 2000.

THE NEW INDEPENDENT STATES

During her nine-month stay in the United States, *Maria Tysiachniouk*, the chair of the Department of Environmental Sociology at the Center for Independent Social Research in **Russia**, conducted research on sustainable development practices and environmental grassroots groups and taught three courses on topics related to her research at Ramapo College of New Jersey.

Tysiachniouk published a book with her students at Ramapo, a culmination of parallel research conducted by colleagues at her host and home institutions. In September 1999, Tysiachniouk invited a group of her Russian colleagues to present data and share their experiences with her students and colleagues in New Jersey. As a result, the two groups collaborated on an extensive field investigation and are planning to continue the collaboration. In March 2000, the scholar received a grant from the Trust for Mutual Understanding, which allowed her to continue to research and lecture in the United States on environmental studies.

THE MIDDLE EAST AND NORTH AFRICA

During spring 2000, Virginia Wesleyan's Center for the Study of Religious Freedom and the Jewish communities of Hampton Roads hosted *Yosef Tobi*, chair of the Department of Hebrew and Comparative Literature at the University of Haifa in **Israel**. A renowned Judaic scholar, Tobi taught two Jewish studies courses, assisted with the development of a new Judaic Studies Program and gave a presentation during the center's Spring Symposium. The latter talk, "The Status of Jews in Muslim and Christian Nations," will be included in an upcoming monograph of Symposium presentations.

upcoming monograph of Symposium presentations. Through his public talks and personal interactions, the scholar challenged the stereotypes and presuppositions of faculty, staff and students about Orthodox Judaism and created bridges between the campus and the local Jewish community. Tobi's wife also became involved in community activities by teaching at the Hebrew Academy of Tidewater and giving a slide presentation at the university. Upon his return, Tobi will continue to play a role in the ongoing development of the new Judaic Studies Program by helping the university locate resources and advising faculty on curriculum and program guidelines.

SOUTH ASIA

Chatham College, a small women's college in Pittsburgh, Pa., hosted Fulbright Scholar in Residence *Chhaya Datar*, the reader and head of the Unit for Women's Studies at the Tata Institute of Social Sciences in **India**. In addition to teaching a seminar course on feminist theory and giving several guest lectures to students in other courses, Datar assisted Chatham in the planning and implementation of its Global Focus Program. Each year, the institution chooses a country or region on which to focus coursework, events, performing arts programs and student activities, and in 1999–2000, the focus was South Asia. During her stay at Chatham, Datar helped the International Students' Association organize a celebration of Diwali, the October Hindu Festival of Lights; brought a group of Gujarati women to campus to teach students a folk dance from the western Indian state of Gujarat; and organized a symposium, "Women Shaping Their Lives in South Asia," in collaboration with the Women's Studies Program at the University of Pittsburgh. According to Datar's hosts, the institution benefited

greatly from her presence and gave the women's studies faculty the tools they needed to include nonwestern approaches in their courses.

WESTERN HEMISPHERE

Maria Cavalcanti, an associate professor at the Federal University of Rio de Janeiro, **Brazil**, spent her Fulbright year at the Columbia University Institute of Latin American and Iberian Studies researching anthropology, folklore and contemporaneous urban rites. During her stay, she delivered a paper at the Latin American Association Meeting in Chicago, which was slated for publication in Brazil. After presenting an invited paper on the "Ox-Dance Festival in Parintins/ Amazonas," her recent topic of research, the scholar was encouraged by a U.S. colleague to write a book on the subject. Upon her return to Brazil in June 1999, the grantee began gathering more source materials for the proposed book, which she intends to publish in this country. Cavalcanti was granted a 12-month extension by the Department of State to continue her work.

ADMINISTRATION AND FUNDING OF THE FULBRIGHT SCHOLAR PROGRAM

The flagship international educational exchange program sponsored by the U.S. Government, widely known as the Fulbright Program, is designed to increase mutual understanding between the people of the United States and the people of other countries. With this goal as a starting point, the Fulbright Program has provided more than 230,000 participants chosen for their leadership potential—with the opportunity to observe each others' political, economic and cultural institutions, exchange ideas and embark on joint ventures of importance to the general welfare of the world's inhabitants.

The Fulbright Program was established in 1946 under legislation introduced by former Senator J. William Fulbright of Arkansas. The Fulbright Program is administered by the Bureau of Educational and Cultural Affairs of the United States Department of State.

Since the establishment of the of the Program, 34,000 visiting scholars have conducted research or taught in U.S. universities, and more than 32,000 U.S. scholars have engaged in similar activities abroad. The Fulbright Program awards approximately 800 grants to visiting scholars each year. Currently, the Program operates in 140 countries worldwide.

The primary source of funding for the Fulbright Program is an annual appropriation made by the United States Congress to the Department of State. Participating governments and host institutions in foreign countries and in the United States also contribute financially through cost-sharing and indirect support, such as salary supplements, tuition waivers and university housing. The Congressional appropriation for the Fulbright Program in fiscal year 2000 was \$105.7 million. Foreign governments, through their binational commissions or foundations, contributed an additional \$28 million directly to the Fulbright Program.

The J. William Fulbright Foreign Scholarship Board (FSB), composed of 12 educational and public leaders appointed by the President of the United States, formulates policy for the administration of the program, establishes criteria for the selection of candidates and approves candidates nominated for awards.

The United States Department of State, Bureau of Educational and Cultural Affairs develops policies to assure fulfillment of the purposes of the Program and administers it with the assistance of binational education commissions and foundations in some 51 countries that have executive agreements with the United States for continuing exchange programs. United States embassies in 89 other countries and a number of cooperating agencies in the United States.

Binational commissions and foundations draw up the annual program plan for exchanges, in consultation with participating universities and organizations in the host country. They also screen, interview and recommend to the FSB qualified candidates for student and faculty grants under their exchange programs. In a country without a commission or foundation, the Public Affairs Section of the U.S. Embassy develops the program and supervises it locally.

The Council for International Exchange of Scholars (CIES) under a cooperative agreement with the Department of State, administers the Fulbright Scholar Program for faculty and professionals. CIES is affiliated with the Institute of International Education (IIE) and has close working relationships with the major disciplinary bodies in the humanities, social sciences and natural sciences. During the terms of their grants in the United States, Fulbright lecturers and researchers are assisted by CIES.

Internationalize Your Campus Through the Fulbright Occasional Lecturer Program

The Occasional Lecturer Program provides financial support for round-trip transportation, which enables scholars to accept two- to three-day guest lecturing invitations at colleges and universities as well as to make presentations at conferences.

Occasional lecturers

- offer department- or schoolwide lectures to students and/or faculty.
- lecture to classes where the scholar can make a contribution to the discipline, meet with faculty for an exchange of ideas and engage in informal discussions with students.
- enjoy home hospitality offered by the school or department host.
- address community organizations that have a special interest in international relations.

Additional funds are available for lecturers who wish to visit institutions that serve predominantly minority student populations.

The *Directory of Visiting Fulbright Scholars and Occasional Lecturers* lists visiting scholars who are in the United States for the current academic year. Use this listing to find and extend invitations to scholars whose research or lecturing topics are of interest to your institution. The directory is also available online at www.cies.org.

For additional information on the Occasional Lecturer Program, call 202.686.6235 or send an e-mail message to cemanuel@cies.iie.org.
