Several contracts are being negotiated. Science Direct is the 1st. Judy has a list of subscribers to the Elsevier Freedom collection should you wish to see it. She also has a list of titles UAMS plans to drop which we need to review should we need to pick some of those titles up.

Nature is currently being renegotiated also, and currently is paid for with grants.

Beth reported that the Arkansas Democrat Gazette and WorldCat contracts are also still being negotiated.

Budgets of other libraries are included in the ARL statistics. http://publications.arl.org/ARL-Statistics-2009-2010/
