The overwhelming majority of the time continued to focus on proposed language for sections on the non-tenure-track faculty.
Distinctions were made between visiting, adjunct, and clinical faculty appointments.
It was determined that while the dean would continue to make the final decision on hiring, the members of the department to which the candidate is to be assigned and that department’s head must be able to provide feedback.
Whenever time allowed, search committees were recommended.
Voting for promotion in rank shall include all faculty members holding that rank or higher, tenure-track or not.
The task force struggled with annual requirements for scholarship and service, which are required for the non-mandatory promotions of clinical faculty.
Phil and Kathleen will divide up the language on these sections thus far and polish it.

The meeting ended at 2:30PM
