Learning Collaborative Meeting – April 3, 2008

Present: Candido, Daniels, Lennertz Jetton, Parker-Gibson, Salisbury

Minutes for 3/27 were approved for distribution.

Lennertz Jetton presented her Naxos video. The group approved it for inclusion with the Music Handouts. As a larger number of subject videos are created and/or approved for linking, we will discuss a separate category on the Guides and Tutorials page.

The group reviewed several concluding slides and approved one for inclusion in general videos:

Discussion turned to the survey results. The committee agreed to use 15 minutes of each meeting to review both sets of survey results while viewing the videos. The group will then determine what changes need to be made or whether additional videos are needed in response. We will begin the review alphabetically beginning with the Author video. Lennertz Jetton will place the statistics on the webpage.

We began a discussion of clickers but determined that it would be more helpful if persons placed their information on the Excel sheet that is attached to Giovanni. Daniels reported that she will try to schedule a field trip to view the H-ITT clickers for next meeting.
