5/10/11

Organizational Structure Committee Meeting Room 486

Necia Parker-Gibson was appointed as the new Co-chair with Tess Gibson.

Two subgroups were formed by numbering off. Each group will come up with an alternate model by June 15th. The drafts will be given to the co-chairs to write up a report for the dean and then the group can give feedback before the June 30th deadline.

The subgroups are:

Group 1
Necia Parker-Gibson
Jeff Banks
Elaine Dong
Lynaire Hartsell
Kathleen Lehman
Lisa Lindsey
Molly Moore

Group 2
Tess Gibson
Dawn Lingelbach
Tim Nutt
Cathy Reineka
Sarah Spigel
Tony Stankus

There was discussion about how we need to begin the process of using the information we have gathered thus far to start building our models. Specifically that we need to work backwards to meet functions and also that we need to make sure we have measurable.

We ended the meeting with a spear drawing by Jeff that lead to a good discussion about all the things that need to go into the model and what support functions back up each other.

It was determined that the subgroups should meet again later in the week and then we would meet again as a whole on Tuesday May, 17th.
