

Wilhelmshaven, 2.7. 1946

Dear Mr. Gregory

Having arrived in my home-country two months ago, I do not want to forget to send you best regards from my family and me.

I still like to remember the time I spent on your farm as a P.O.W. last year. Too I want to thank you for all the good you did for me and my fellow-prisoners. I would be very glad if you would answer my letter.

Although I am very fond of being home again, living conditions are very bad in Germany now. Still we hope that it will get better in a few years. But the main thing is that my wife and my little 14 months old daughter are still living and healthy. That makes me very happy.

Your
