Cross Reference.

BCN 132-134 consists of files, in general alphabetical order, containing carbon copies of letters originating in JWF's offices. Letters are grouped by alphabetical sub-headings and arranged chronologically within the alphabetical groups. Specific names and subjects are not indexed separately, as identical copies of all correspondence may be found in subject-oriented files. Letters to a specific correspondent, however, may be located with relative facility by a cursory search of these cross reference files. Consult the File Titles Inventory for the alphabetical and chronological distribution of the files.

BCN 148 consists of Christmas cards received by JWF from individuals who would, under normal circumstances, be indexed. However they are not, because the material in BCN 148 will be of little interest to researchers. There is only one correspondent indexed for the entire BCN, James Douglas Johnson in F21. His Christmas greeting

1079.

BCN 148. (Cont. ...)

is in the form of a letter protesting what he calls the destruction of the United States constitution and the Bible. No subjects are indexed in the BCN.
