

Room Operating Instructions

NOTE: Activities with the projector are controlled through the wall panel. Using the buttons on the projector will disrupt the panel operability for the next user.

The screen is operated using the wall switch.

Press on the control panel buttons to switch between devices.

- Power Projector: Press ON button. Screen will lower automatically.
- To use desk computer: Press button 2.
- To use other video equipment, press button 1.
- Volume is controlled by the + or – buttons on the control panel.
- To turn projector off, press OFF button TWICE.
- Please remember to lock the room when you leave.

Other equipment may be used through a direct connection using the HD connection on the north wall.

For help or to arrange a session to test the equipment prior to the use of the room, please contact David Boddie (dboddie@uark.edu, 575-5418), the Libraries' Systems Department Help Desk (575-7990)
