Storage Facility Processing Collections Committee

Added to Docs & Files

item record numbers from rapid update 365 Necia 3 22 2018.txt

item record numbers from rapid update 365 Necia 3 22 2018.txt

item record numbers rapid update 365 Sarah 3 22 2018.txt

rapid update 365 Necia 3 22 2018.txt

rapid update 365 Sarah 3 22 2018.txt

item record number rapid update 769 Necia 3 21 2018.txt

item records numbers rapid update 769 Sarah 3 22 2018.txt

rapid update 769 Sarah 3 22 2018.txt

DocsforStorageDRAFTONLY2.xlsx

User Services Storage and Stacks Personal

Completed

LISA Missing list - 79 items found in Main

Faculty Recall/Checked out list - 141 items searched, 2 found in MAIN - cleaned

Clean up records of various missing statuses 4 items searched; 0 found

Decideds

remove of unneeded shelving in periodicals and replace with tables or carrels from Level 1
will be done by Facilities

Op Cit (Operation Caiasoft Implementation Team!)

Added to Docs & Files

DataFlow for Storage.docx

Maggie shelving details.pdf

Completed - Sierra Holds Integration - Test output from sample holds placed on "Homer
Storage Facility" items

Completed - Data Flow Mapping - Diagram some possibilities

To Dos

Sierra Holds Integration

Question from Laura B. : in the holds stream should the pickup location translate to a circulation location

Configure SQL query to extract holds list (to match the create list strategy)

Understand how file of holds data moves from file into Circ jobs in queue

Begin work with Caia API

Data Flow Mapping

Take notes from this morning's meeting to more programmatic document

Get to the bottom of serials + icode1=365 strategy

discuss implications of direct accession / no accession stream with Laura and Chris

test updating item information in union catalog via file load

explore methods to mitigate dual linked item records : remediate or accept bad data?

ask about adding data fields to Union catalog search OR special reports - specifically for icode1
